Faculty Positions…

The Department is seeking motivated young faculty to further its vision to be amongst the leading Chemical Engineering departments in India, with a national and international presence in technologies related to energy, environmental remediation, novel materials, and healthcare. Some of our current thrust research areas are:

- renewable and conventional energy technologies
- bioprocessing for pharmaceutical and healthcare technology
- interfacial engineering and nanotechnology
- molecular to process scale simulation, modeling and optimization
- advanced novel materials

Some of the key benefits provided to new faculty:

- Generous seed grant for research
- Young Faculty Incentive Scheme
- Annual professional development grant
- Residential accommodation on campus
- Medical facilities on campus
- Reimbursement of airfare and relocation cost at the time of joining

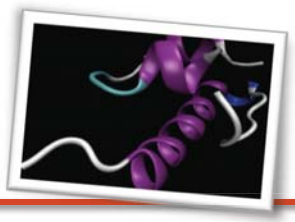

Applications are invited in all areas of Chemical Engineering. Candidates with an excellent academic record and an active interest in teaching and research are encouraged to apply and welcome to visit us. Please visit our website for more information.
